

Exploring Life and Career: Teachers Edition

Exploring Life and Career is a comprehensive text designed to help young teens learn about themselves, their friends, families, communities, environment, and career options. Students are challenged to develop essential life skills, apply basic learning, employability, and thinking skills, and care about their communities and the environment. The overall goal is to enable teens to become caring, responsible, informed, and engaged students and citizens. Hundreds of color photographs, drawings, and charts are used throughout the text to illustrate main ideas and add visual appeal. The teachers edition of this text presents a variety of instructional strategies in the margins of each page that are intended to guide you in reviewing and reinforcing the chapter content. Related Web sites are often cited along with technology applications and cross-curricular ideas. It also provides discussion topics, enrichment activities, assessment techniques, and correlations to the National Family and Consumer Sciences Standards.
