

## Anthropocentrism (Human-Animal Studies)

Anthropocentrism is a charge of human chauvinism and an acknowledgement of human ontological boundaries. Anthropocentrism has provided order and structure to humans understanding of the world, while unavoidably expressing the limits of that understanding. This collection explores the assumptions behind the label anthropocentrism, critically enquiring into the meaning of human . It addresses the epistemological and ontological problems of charges of anthropocentrism, questioning whether all human views are inherently anthropocentric. In addition, it examines the potential scope for objective, empathetic, relational, or other views that trump anthropocentrism. With a principal focus on ethical questions concerning animals, the environment and the social, the essays ultimately cohere around the question of the non-human, be it animal, ecosystem, god, or machine.
