

## Vegas Girl: A Memoir about surviving Sin City

Las Vegas is a careless mistress, tempting and selfish in her ability to consume. I learned this at the age of thirteen when I moved to the city from a Sacramento suburb. I was ill equipped to battle the demons that awaited me there. Naively I settled in and began to make it my home and began my teenage experience, treating the city as if it were any other. This is a true story about growing up in a place that I perceive as completely normal, just as a million other Las Vegas residents do. But that was a mistake, I let the city consume me and it was my fault for it never pretends to be anything other than the city of sin. But it is my home and although I have left it now it was always be as such. I came of age there and I became a teen mom there. This is the story of my normal. This memoir takes me through high school where I fell in love with a man who abused me, raped me and left me pregnant and alone, all before my junior year of high school, but it also the city where I found my strength, where I attended college and began raising my daughter
