

Cognitive Behavioral Therapy Vol. 2: The Pocket Therapist Series

While the 1st Volume in the CBT series dealt mainly with anxiety and thinking processes, in this 2nd volume we deal with low Self-esteem and anger in the context of CBT. Self-acceptance may be the most worthwhile thing we do for ourselves and much of what is contained deals with this. Anger is a very strong emotion and this, also, is dealt with in the context of CBT. Healthy and unhealthy anger is discussed to allow readers more flexibility in their behaviour choices.
