

Disney Pixar Cars Tour the Town (Steering Wheel Sound)

Cars Steering Wheel Sound Book: Tour the Town enables children to feel like they're driving with Lightning McQueen as he explores Radiator Springs. Based on the movie Cars and designed for kids ages 18 months and older, this interactive book features a mounted telescoping base with a steering wheel that rises and locks into place. Various triggers including the horn button on the wheel make realistic car sounds that accompany and enhance the story. Each spread features Lightning McQueen's illustrated journey on the left-hand page, while the right-hand page shows what your child sees through the car's windshield at each point in the story. Cars Steering Wheel Sound Book: Tour the Town puts children in the driver's seat. As they follow Lightning and the Rust-eze brothers on a tour of Radiator Springs, they can turn the steering wheel and press buttons to hear 13 fun sounds, including an ignition, a revving engine, a beeping horn, a variety of tunes, and more. Features of Cars Steering Wheel Sound Book: Tour the Town include: Action-packed text and exciting sound effects. A movable steering wheel and various illustrations of the driving path that make children feel like they're really cruising down the road with Lightning McQueen. A sturdy cover and heavy board pages that withstand rough handling. Cars Steering Wheel Sound Book: Tour the Town comes with three replaceable long-life AG-13 batteries and conforms to the safety requirements of ASTM F963-08.
